

Kurzweil 3000 (Win) v.10.x

Using the Reference Tools

Suggested Activities

Once you have completed the tutorial, try these activities to practice using the Reference tools...

1. Open an image or scanned document from the Sample Documents folder. Look up the definitions of several words in the document.
2. Look up a specific word not in the document.
3. Select a different reference dictionary.
4. Look up the synonym and syllables of a few words in the document.
5. Use the Look Up Word tool in the Kurzweil 3000 Taskbar to look up words on a web page.
