

## • Co:Writer SOLO Update / Patch Instructions •

### READ THIS before installing Patch

How to install Co:Writer 5000 patch on Windows 2000/XP:

- 1) If Co:Writer is running please exit the application.
- 2) Download the .zip file to the desktop.
- 3) Double-click on the .zip file to open
- 4) Right click on the CoWriter 5000 file to open Windows menu
- 5) Select "Copy" from the menu
- 6) Double-click on the My Computer on the desktop and Double-click on the hard drive (usually the "C:" drive)
- 7) Double-click on the "Don Johnston" folder
- 8) Double-click on the CoWriter folder
- 9) Select the "Edit" menu and select "Paste". A "Confirm File Replace" window will appear asking if you would like to replace the existing file. Select "Yes"
- 10) The patch has now been successfully installed. If you had "Auto-Hide" turned on, you can now turn it off.

To turn off "Auto-Hide" open Co:Writer Solo Edition and find your tool palette on the upper right hand side.

1. Under "More Commands" Click the "Settings" button on the floating palette.
2. Click the tab labeled "Prediction"
3. Uncheck the box labeled "Auto-Hide". Click "OK".
