

Rounding the 2016-2017 School Year Corner

A belated Happy New Year to everyone! We are moving quickly through January 2017 as consultants are busy out in the schools providing core services and the SET-BC Provincial Centre is coordinating provincial initiatives like the Complex Needs Technology Project.

We are also very busy getting ready to host educators and District Partners from all over the province at our 2017 District Partner Conference in February. We hope to see as many groups (District Administration, district specialists, district itinerants, classroom teachers, educational assistants and, of course District Partners) represented as possible on February 21st and 22nd. Register before time runs out - if you need any help registering, please contact Tak Yamada at training@setbc.org.

SET-BC Online Training Schedule – January to March

SET-BC DP Conference NOT Just for District Partners!

CNTP is Shipping!

iPads: Learning to App-ly Ourselves!
