PSAP | Provincial Software Acquisition Plan

2009 | Helping teachers address diverse student needs

SETBC (Special Education Technology – British Columbia) is pleased to offer BC school districts the opportunity to join our provincial software licenses. Through the Provincial Software Acquisition Plan (PSAP) schools are able to acquire recommended software at preferential prices and access SETBC's online training modules. SETBC recommends software to support students with diverse needs in literacy, early math, concept development and communication.

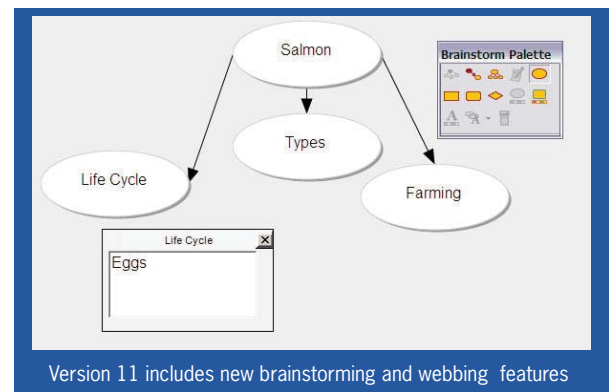

NEW FOR 2009

Kurzweil 3000 version 11

This popular reading, writing and study solution for students includes many new writing features and writing tools such as Brainstorm, Outline, Column notes, Draft, Writing templates, Word lists and Review. These new research based writing features help support students at every stage of the writing process. For more information see the online data sheet at

http://www.kurzweiled.com/files/pdf/K3000_V11_Datasheet.pdf

Kurzweil 3000 supports the principles of Universal Design for Learning (UDL) by providing students with multi-sensory access to virtually any text or curriculum, including print, electronic and web-based documents. Kurzweil 3000 was selected as the single most useful piece of software for addressing the diverse needs of learners by teachers in the first year of the BC UDL project.

Classroom Suite 4

This unique intervention tool also supports UDL principles by combining direct instruction with a flexible tool environment to help students in grades Pre K through 5 in reading, writing and math. Students achieve mastery in literacy through systematic instruction that builds strength in phonemic awareness, phonics, fluency, vocabulary and comprehension. Math skills are addressed through a combination of on-screen manipulatives, direct and explicit instruction and automaticity training.

Classroom Suite 4 is also an authoring tool. Research based activity templates can be used out of the box or easily customized to address the diverse learning or access needs of students. Classroom Suite 4 includes many built in UDL supports such as customizable speech support, word prediction and ships ready for touch screen, switch or interactive white board use.

Please visit WWW.SETBC.ORG/PSAP to view other titles which can help support UDL principles in the classroom, including: SOLO, Co:Writer, WriteOutloud, Simon Sounds it Out, WordMaker, Start-to-Finish books, Boardmaker Plus, TimeScales, Money Skills and Number Concepts.
