ProLoquo2Go (v3.0.3) and Pictello (v2.0) on iDevice (iOS 7.0.4)

Using ProLoquo2Go to Write into Pictello

Introduction

Proloquo2Go is a communication app for the Apple iPad (iPad mini, iPod touch and iPhone). Communication messages or text created in the Proloquo2Go app can be exported into Pictello to create a story, make journal entries or create a personalized learning log for science or socials.

This tutorial assumes the reader should already know how to:

- create messages in ProLoquo2Go,
- take photos on an iDevice or save images to the camera roll,
- read a story in Pictello.

Learning Objectives

Completion of this tutorial will give you experience with the following:

- Creating a new story in Pictello using the Wizard
- Copying messages created in ProLoquo2Go into Pictello
- Navigating between apps

Case Study

Samantha is a 10 year old student with Down Syndrome. She is non-verbal. She has an interest in books but cannot yet read on her own. She likes to draw pictures and write although her output is not recognizable. Samantha is beginning to use ProLoquo2Go. She can label objects and is beginning to put 2-4 words together in telegraphic utterances during structured practice (e.g.: I see ___. I like blue ball. I go on swing.). She has the Pictello app and has been using it to read Accessible Books. Her team would like to expand her use of these two apps so she can write her own books.

Create a title for your Pictello story in ProLoquo2Go

1	**Open Proloquo2Go**.	
2	**Write** the name of your story. Tap **the right arrow** in the top right corner of the taskbar.	
3	A pop-up screen will appear. **Select Copy**.	

4	**Minimize** Proloquo2Go by **double pressing** the iDevice **Home** button.	
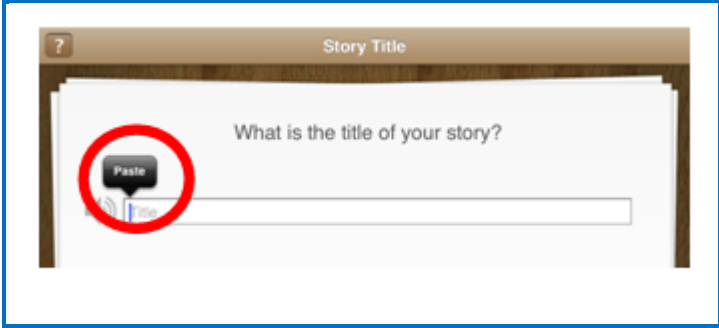

Create a story in Pictello

|		
1	**Open** the Pictello app.	
2	**Select the "+" sign** in the bottom taskbar to add a new Pictello story then **select the Wizard.**	
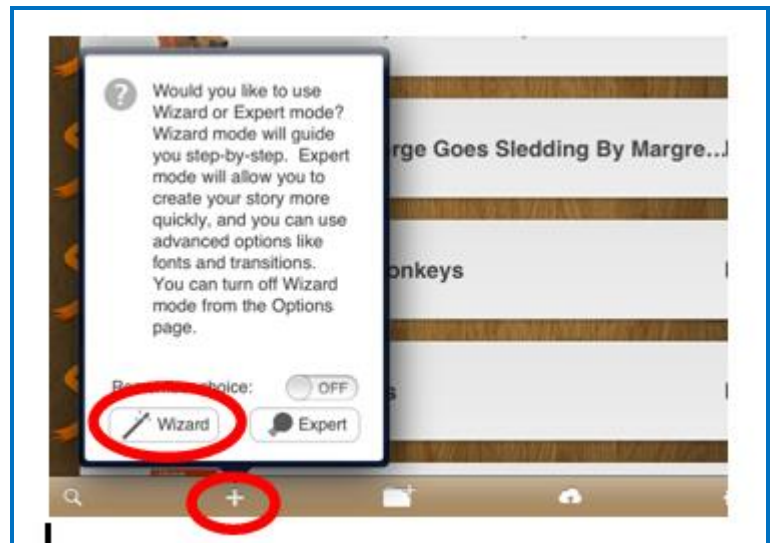

3	**Hold your finger** on the textbox for the title of your story and then **release**, **select Paste.**	
4	**Close** the keyboard pop-up. Then **select** the **right arrow** in the bottom taskbar to navigate to the next step.	
5	**Tap** the centre of the **picture frame** and a pop-up menu allows you to **select** "**Choose from Photo Library or Take a Picture**".	

| 6	**Select** your **picture** if using your Camera Roll.	
7	In the Choose Photo pop-up, **select Use**.	
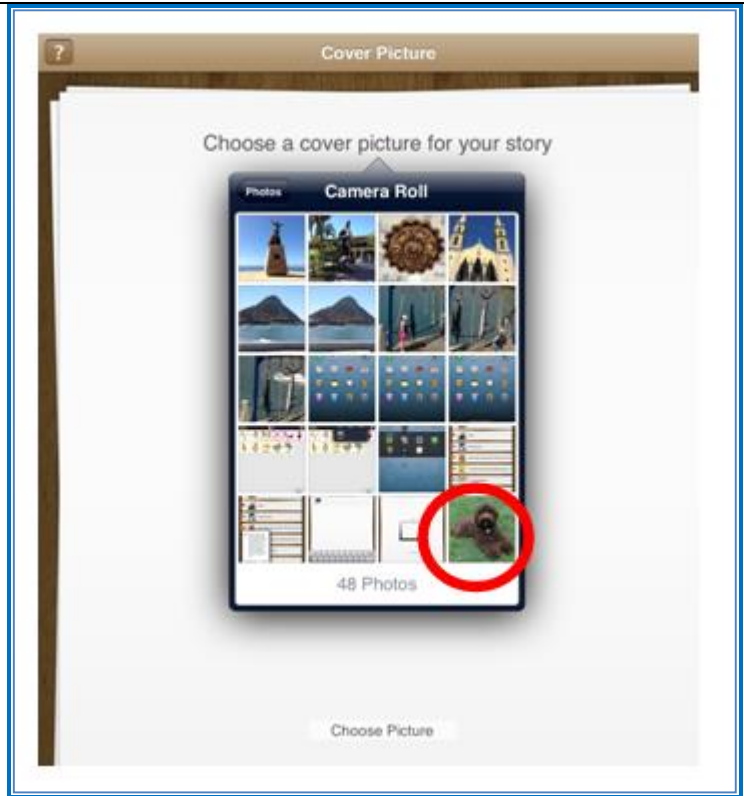

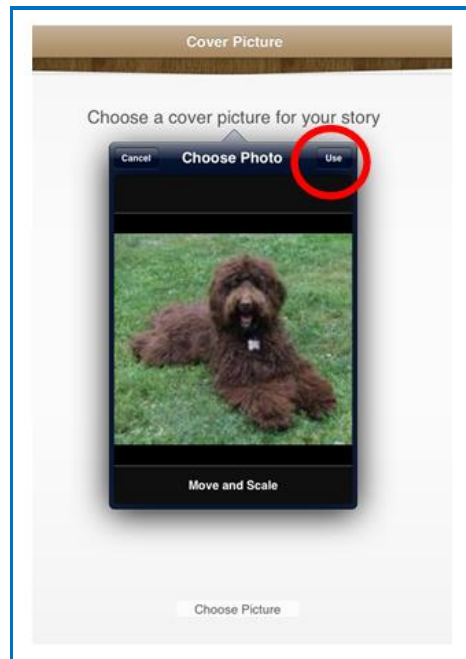

|		
8	Once the picture shows up on the title page, **navigate to** the **next step** by **selecting** the **arrow** in the bottom right hand corner of the taskbar.	
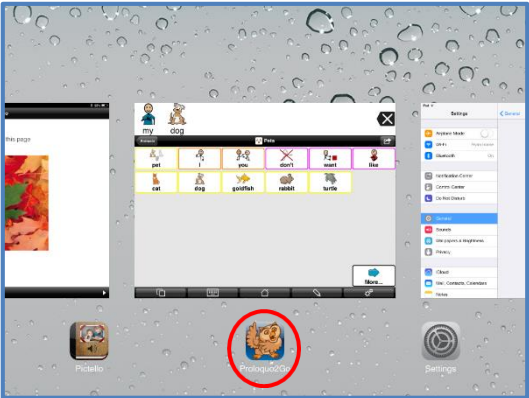

Add sound

1	**Choose** the **voice** you want for your story **or record** what you have written.	
2	**Select the right arrow** in the bottom taskbar to move to the next step.	

Add more pages to your story

1	**Select** "Add a Page".	

2	**Add** the next **photo** in your story as you did for the title cover photo. **Select** your **photo** source and then the **specific photo**.	
3	**Select** the right arrow in the bottom taskbar to move to the next step. **Skip** the **voice page** unless you want to change the voice or record.	
4	**Think** of the text you want to match the page.	

Back to ProLoquo2Go to formulate text

1	**Double press** the iDevice **Home** button and **select ProLoquo2Go** from the open apps.	

| 2	**Clear** the title from the **message window** by selecting the "X" in the right corner.	
3	**Formulate** your message (one or several lines of text). **Tap the right arrow** in the top right corner of the taskbar. A pop-up screen will appear. **Select Copy**.	
4	**Minimize Proloquo2Go** by double pressing the iDevice Home button. **Select Pictello** from the open apps.	
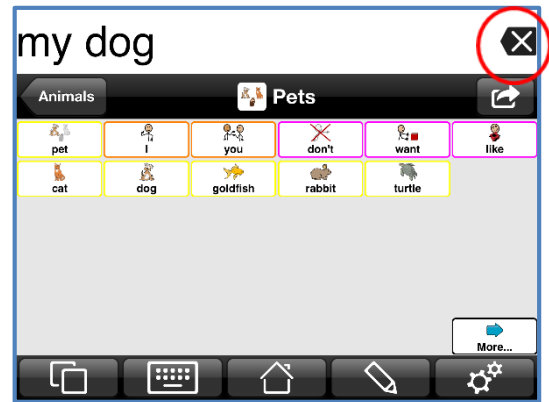

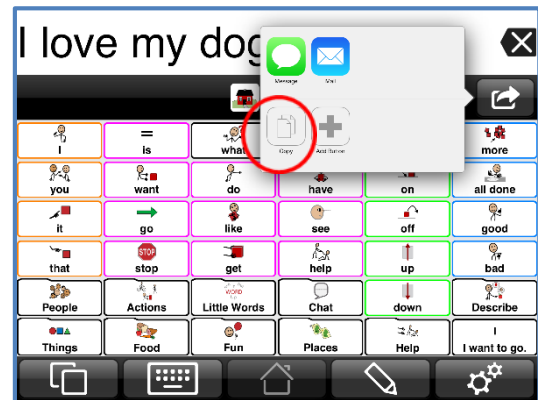

Back to Pictello

|		
1	**Select** either the top or bottom **label** for your text. **Hold your finger** on the textbox and then **release**, **select "Paste"**. Your text will print from ProLoquo2Go. **Close** the **keyboard** pop-up and select the right arrow in the bottom taskbar.	
3	**Continue** adding pictures, navigating to ProLoquo2Go to write, copying and pasting the text. **When finished** with your story, instead of adding another page, **select "Done With Story".**	
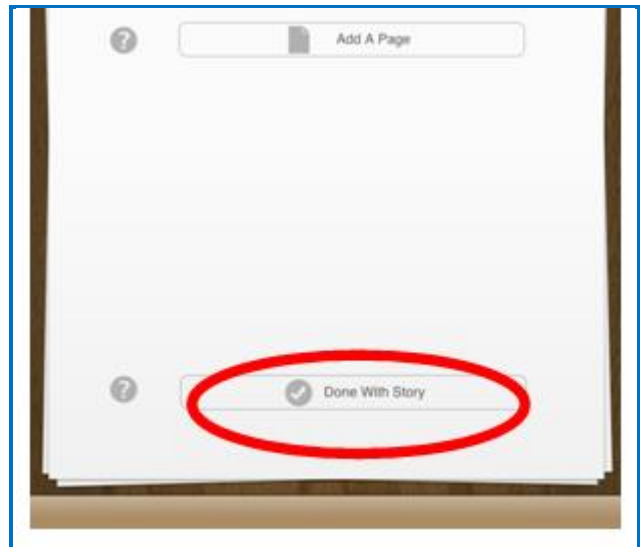

## Read, Edit, Share, Export or Print your Story

|		
1	Your story will now be listed as the last item in the Pictello Library. You can **read** it by **pressing** the **arrow** to the right of the title.	
2	If you want to **edit, share, export as a pdf**, **select** the **button in the top right corner** of the Pictello taskbar.	

3	**Select your choice** and when finished, **select Done** from the top right corner to have access to the reading function again.	

💡 Tip…Some teams have found it helpful to create the photo content for stories in Pictello first and then add the text later by navigating between the story and Pictello. One caution in this approach is that you will need to create your title for your story before adding the pictures. This can be done by typing if desired.
