

Cool Communicators Holiday Gathering

Thank you for registering your student and his/her friend for our Cool Communicators Holiday Gathering.

Students will be moving through a variety of fun activities which focus on peer interaction, fun and device usage. Students will rotate through six stations. Your student will need appropriate vocabulary for each station. How you program this vocabulary is up to you. You know your student best. You can program one page for each activity or you can program links to categories e.g. color words – whatever works best for your Cool Communicator.

In order to make this event run as smoothly as possible, please program the following vocabulary into your student’s device ahead of time:

1. Gift Station: (words that you could use in a Secret Santa activity)
