Planning Document for Digital Citizenship

1. What technology might your students encounter during the lesson and how will it be used?

2. What themes will apply to your lesson?

3. Explore the resources and make note of useful links and tools for your lesson

4. Identify a goal that your students can achieve in this lesson

5. What evidence will you collect that demonstrates that they have achieved this goal?
Reflection

1. Overall were the students successful in meeting the goals of the lesson?
   a. What were some strengths and stretches?
   b. In what ways will you do it differently?

2. What are your next steps? Where will you go from here?
   a. If you would like additional support, please contact SETconcierge at concierge@setbc.org.
