Introduction

Co:Writer Universal Extension for the Chrome browser is an extension that aids written output, by providing supports for grammar, spelling and vocabulary. In addition to the word-prediction and speech recognition features, this extension also has integration with Google Drive, blogs and social networks, as well as email.

Integration Ideas –
• Essay writing
• Book report
• Lab report
• Reflection
• Spelling check
• Presentation
• Vocabulary
• Note taking
• Project
• Daily log

Task Challenge/Activity
• Open up Google Drive and start a new document.

• Click on the Co:Writer extension icon to enable the extension functions.

• Try typing out a sample day plan for a substitute teacher. Did the word prediction come in handy?
• Try using the microphone feature – this may require you to enable access to the microphone.
