

## Module 1 – Introduction to Assistive Technology

### Module Summary Activity

*Before completing this summary, go to [www.youtube.com](http://www.youtube.com) and search for: "Assistive Technology in Action," to watch one or more videos about students using assistive technology. There are about 8 videos in this YouTube collection. Select the ones you would like to view and reflect on these questions.*

1. Was there a common theme in the videos you watched?
  
  
  
  
  
  
  
  
  
  
2. What were some of the strategies team members used to support the use of the various technologies?
  
  
  
  
  
  
  
  
  
  
3. What do you think the overarching goal should be when implementing assistive technologies with students?
  
  
  
  
  
  
  
  
  
  
4. In this self-directed course, you will be working a great deal on your computer. How comfortable are you, yourself, with technology? Are there areas you feel you should know more about or skills you should develop that would help you use technology more effectively with students?
